Our Mission

The mission of Eno River Media Productions is to promote and support North Carolina's unique arts community, non-profit organizations, and positive entrepreneurial spirit found in the diverse communities throughout our state through a variety of media by being the leader of North Carolina's commercial digital video production industry.

Our Vision

Eno River Media Productions (ERMP) is an IRS 501 (C) (3) nonprofit media production organization that produces digital media video. Eno River Media Production is the only non profit media production organization in the United States producing series programming according to our research. We seek to bridge the digital divide and create economic opportunities through training and experience in digital media and broadcast technologies. ERMP strives to be the leader of the digital video production industry of North Carolina creating, capturing and producing digital video in a diverse range of markets.

Our Corporation

Eno River Media Production is a nonprofit company located in the heart of the North Carolina Piedmont. Eno River Media Production is dedicated to highlighting the best aspects of our volunteer and artistic community no matter the media. Our current staff represent ethnically and economically diverse communities in the Piedmont area. As part of our corporate culture, we promote unity and teamwork by folks of various ages and backgrounds. ERMP has slowly, since 1999, developed a production company producing several television shows using technology easily purchased from local vendors. Through this technology, and growth, ERMP migrates from the episodic programming domain to a revenue driven digital production organization capitalizing on our creative resources.

ERMP's goal is to publicize the unparalleled talent and resources found in North Carolina. By working our goals into our corporate culture, we come together with a common purpose to promote unity and teamwork by folks of various ages and backgrounds to produce programs of importance to each community.

Currently, ERMP provides access to digital media and training from highly skilled, experienced, creative and dedicated staff members to volunteers who previously have not had the economic means to produce programs on local topics of importance to North Carolina communities. Our steady philosophy of cultural and economic opportunity has created an organization that provides the opening to build bridges throughout North Carolina neighborhoods.

If you realize you will be later than 20 minutes to a shoot, please contact the Director of the shoot as soon as possible or the ERMP contact number listed above.
