Subject: ERMP Board of Directors elects new President

Eno River Media Production announced on Monday February 24, 2014 the election of a new President of the Board of Directors.

On Monday February 24th, 2014, Chandler Vatauvuk accepted the position of President of the Board of Directors.

**About Chandler**

Chandler was born in Durham, NC. He graduated from Jordan High School in 2000 and then graduated from UNC-Chapel Hill in 2004 with a BA in History, and a Minor in Dramatic Arts. Chandler graduated from law school at NC Central in 2007.

Chandler was on the Board of Directors for the UNC Student Television (2001-2004). He is a special guest on The Special Hour hosted by Paul Hardin on WCHL 1360. This was a one hour radio program which focused solely on my life and times in volunteerism.

Chandler has been a Producer for UNC Student Television Feedback Live Show (2002-2004). Also as host of this weekly one-hour live talk and news show, Chandler put out over 20 episodes a year of original content which included taped and edited segments, video bumpers and lead-ins, interviewing students on the street, and live discussion of the news with debate and banter.

Chandler stated "I really want to make my mark in the local film and television industry, and essentially put NC on the map nationwide as a great place to make quality independent films. I want to facilitate this by lobbying for the NC Film Commission through the Governor and other state politicians."

Chandler joined the ranks of ERMP volunteers in July, 2006.

**About ERMP**

Eno River Media Production, established in March 1999, is dedicated to educate, facilitate and advocate the growth of the movie and television industry in North Carolina.

ERMP will accomplish this mission by educating, facilitating, nurturing and uniting independent North Carolina film and video makers, allied industries, civic and governmental organizations by propagating a network of industry professionals.
